Delivering competitive advantage to our customers by creating unique factory automation solutions.

Leading Edge Automation Products including - PLC's, HMI's, Sensors, Vision Inspection & Smart Sensors, RFID & Bar Code, Motion Control, Timers & Counters, Temperature Control, Power Supplies and much more...

Electric heaters, temperature controls, Power controls, sensors and thermal solutions

Cage clamp terminal blocks and I/O systems

Programmable Limit Switches, Linear displacement transducers

Machine safeguarding solutions

Compact Vision Systems using LabVIEW software

Contactors, circuit breakers, disconnects, pilot devices

Bar Code Scanners & 2D Imagers

Stacklights, visual lighting and audible alarm products

AC, step and gear motors, linear and rotary actuators, fans

Motors, gearmotors and drives

Linear motion systems & components.

DIN connectors, cables, networking and Ethernet solutions

Ethernet switches, hubs, gateways, DIN Connectors, cables

Industrial electric cables and connectors

Line Scan Cameras

LED Machine Vision Illumination

Modular vision lighting with intelligent constant current (smart) driver in every light.

Optics

Line Scan and area scan cameras

LED lighting for machine vision

Panel Interfaces

Innovative interconnect and interface solutions

Affordable Human Machine Interface (HMI) and Operator Interface Terminals (OIT) products.

Automation system components, electronic devices

Industrial ethernet switches & network products

Current voltage & anti tie down relays, zero speed switches, custom PC boards

Sensor mounting, positioning and protection hardware

Industrial Computers and Displays

Point of operation machine guarding, perimeter guards, safety controllers

**Automation, Control and Networking**

- Programmable Logic Controllers
- Graphic Displays
- Industrial PCs
- Remote I/O Networks
- Ethernet Switches

**Industrial Electric Heating and Control**

- Electric Heaters
- Temperature Controls
- Power Controllers
- Temperature Sensors
- Process Systems

**Machine Vision, Measurement and Inspection**

- Laser Measurement
- Machine Vision Systems
- Lighting
- Line Scan Cameras

**Safety**

- Light Curtains
- Guard Switches
- Safety Mats
- Controllers and Relays
- Laser Scanners
- Bumper Strips

**Motion Control**

- AC Motors
- Servos
- Steppers
- Brushless DC Motors
- Variable Frequency Drives
- Linear Motion Products

**Sensing - Position, Temperature, Pressure, Linear, Rotary**

- Photoelectric
- Proximity switches
- Pressure/Vacuum
- Mechanical Switches
- Pushbuttons
- Thermocouples and RTDs
- Linear Displacement Transducers
- Encoders
